| Paylt simplifies doing business with government

Paylt is bringing government agencies and people closer together through our award-winning, digital platform. Paylt allows state agencies to **consolidate hundreds of services into one connected experience**. This innovative approach modernizes how constituents interact with government and allows offices to **increase efficiency, streamline the citizen experience and drive down operational costs**.

| Streamlining government services

Paylt's digital government platform is highly configurable and able to meet all state government business requirements. Residents can pay their bills through their preferred experience – web, mobile or native app. Users can also create a digital wallet that allows them to store all of their payment and profile information, set up due date alerts and enroll in eBilling, AutoPay or payment plans. This allows for **easier citizen engagement, faster speed-to-revenue and fewer delinquencies for agencies**.

| Securely processing billions of dollars

Paylt is built on a microservices architecture and runs securely on AWS GovCloud (US). [AWS GovCloud \(US\)](#) gives government customers and their partners the flexibility to architect secure cloud solutions that comply with the FedRAMP High baseline and other compliance requirements. This enables the Paylt platform to **securely process billions of dollars in transactions on behalf of government agencies**.

| An omni-channel experience

Residents can view, manage and pay their bills from any device.

| Paylt clients thrive in a contactless world

82% increase in online dollars collected

35% decrease in manual checks processed

40% decrease in DMV customer walk-ins

Torre Jessup
Commissioner, NCDMV

We are excited to provide **faster, more efficient services** for people. Paylt allows us to meet people's needs in a modern and convenient way.
